SKILLS

Programming Languages:

- C, Java, JavaScript, TypeScript, Dart, python.

Web Technologies:

- Spring(boot/MVC/Data JPA / Security / Cloud).
- React, Angular, HTML, CSS, Bootstrap,
- Ajax, Thymleaf.
- Java JEE, Node. JS , Express.

Mobile Technologies:

- Flutter / Ionic Angular

Database:

MySQL, OracleDatabase, PostgreSQL, SQL Server, MongoDB.

Operating Systems:

- Windows, Linux.

Design and Methods:

- UML, Merise, Design Patterns.
- InDesign / Figma / Illustrator

SOFT SKILLS:

- Problem-solving
- Optimization
- Rapid Learning

Second-year Computer Engineering student

FORMATION

• Faculty of Sciences and Techniques Settat.

Engineering Degree in Computer Science
2022 - Present

• Polydisciplinary Faculty of Ouarzazate

General University Studies Diploma (DEUG) in Mathematics and Computer Science (SMI) in 2020-2022

• High School

baccalaureate in Physical Sciences and Chemistry (SPC) in 2019-2020

Experience

July 17, 2023, to September 3, 2023 at Diamantech

Internship: Developed a full-stack task management mobile application using Ionic Angular and Node.js to contribute to the company's innovation

Academic Projects:

• Java Project:

Administrative Management System for a College
Technologies used : Java , JavaFX, MySQL.

• Python Project

Principal Component Analysis (PCA) and Discriminant Factor Analysis (DFA) Applied to a Dataset
Technologies used : Python

• C Language Project:

Library Management System

• Air Traffic Control Project:

Technologies used: Developed with Spring Boot and web technologies (HTML, CSS, JavaScript), featuring real-time aircraft tracking, smooth animation for aircraft movement, collision detection, and meteorological condition management with Dijkstra's algorithm.
